RAMKUMAR A

Automation Engineer | SELENIUM |REST API | SQL

+91 8778047977 | ramkumar.a7@tcs.com| Chennai, Tamil Nadu

PROFESSIONAL SUMMARY

Automation Engineer with 5+ years of experience in Automation Testing and Quality Assurance. Strong expertise in Java, Selenium WebDriver, and Cucumber (BDD), TestNG, Python with Selenium, Pytest framework, Robot Framework with hands-on experience designing scalable, maintainable automation frameworks using Page Object Model. Skilled in writing Gherkin feature files and step definitions, Jenkins CI/CD integration, Git, API testing, and Agile delivery. Proven track record of increasing test coverage, reducing manual effort by 30%, and delivering high-quality, reliable releases.

TECHNICAL SKILLS

Programming: Java (Core Java, OOPs, Collections, Exception Handling), Python

Automation: Selenium WebDriver, Cucumber (BDD), TestNG, Robot Framework, Pytest

Framework Design: Page Object Model (POM), BDD (Gherkin), Data-Driven, Hybrid Frameworks

Build Tools: Maven

Reporting: Allure Reports, Cucumber HTML Reports

API Testing: Postman, REST APIs, JSON, XML

Databases: MySQL, PostgreSQL

CI/CD & Version Control: Jenkins & Git

Test & Defect Management: JIRA, Bugzilla, qTest, QA Home

Operating Systems & IDEs: Windows, Linux (CentOS, SLES), Eclipse, IntelliJ IDEA, VS Code, PyCharm

AI Productivity Tools: Copilot, Codeium, LLM tools

Virtualization & Storage: VMware ESXi, vCenter, vCloud Director, Datastore, RAID, RAIN, Dell Avamar, Backup & Restore

PROFESSIONAL EXPERIENCE

Tata Consultancy Services (TCS) — Automation Engineer | Aug 2026 – Present

- Completed organizational onboarding and mandatory training programs, aligning with TCS quality, security, and delivery standards.
- Strengthening hands-on expertise in Java, Selenium WebDriver, Cucumber (BDD), and REST API automation through internal learning programs and practice projects.
- Exploring AI-assisted test automation using GitHub Copilot to accelerate script development and improve automation efficiency.

Hexaware Technologies — Senior Software Engineer | Aug 2025 – Aug 2026

- Designed and developed a scalable BDD automation framework using Java, Selenium WebDriver, Cucumber, TestNG, and Maven, following the Page Object Model for reusability and maintainability.
- Translated business requirements into Gherkin feature files and step definitions, enabling clear collaboration with business analysts and product owners.
- Integrated automated test suites into Jenkins CI/CD pipelines to support continuous testing.
- Implemented Allure, and Cucumber HTML reporting to improve test visibility and speed up debugging.
- Optimized scripts and enabled parallel execution with TestNG and Cucumber tags, reducing overall test execution time.
- Collaborated with cross-functional teams to improve automation coverage, stability, and early defect detection.

HCL Technologies — Software Engineer | Feb 2021 – Aug 2025

- Developed and executed automated test scripts using Java, Selenium WebDriver, and TestNG, along with Python Robot Framework, for enterprise applications.
- Performed functional, regression, integration, and system testing to support high-quality releases.
- Strengthened QA processes and automation coverage, contributing to an approximately 20% reduction in defect leakage.
- Built reusable page objects, utility classes, and keywords to reduce script duplication and maintenance effort.
- Conducted API testing with Postman to validate backend services and integrations.
- Used Git for version control and collaborated with developers to identify root causes and improve defect resolution.
- Participated in Agile ceremonies and supported test planning, test case design, and test data preparation.

PROJECT EXPERIENCE

Carlyle Engineering — Hexaware Technologies

- Developed and executed automated BDD test scenarios for two enterprise applications: ASM and Valuation, using Java, Selenium WebDriver, and Cucumber.
- Built reusable Page Object Model components, Cucumber hooks, and data-driven step definitions, enhancing framework maintainability and scalability.
- Supported Jenkins CI/CD execution and used Git branching, merging, and collaborative code management.
- Performed functional, regression, and cross-browser testing, along with test data management and defect tracking.
- Worked with developers, business analysts, and QA teams in Agile/Scrum environments.

Dell Avamar Backup & Recovery Product — HCL Technologies

- Automated workflows for backup, restore, replication, and deduplication.
- Validated functionality across VMware environments and multiple platforms.
- Developed automation scripts to reduce regression cycle time and performed performance testing to assess storage efficiency.
- Verified data integrity and reliability through comprehensive testing strategies.

DOMAIN SKILLS

- VMware ESXi host configuration and management
- vCenter administration and cluster management.
- vCloud Director deployment and configuration
- VM provisioning, cloning, lifecycle management, and vMotion.
- Datastore management and performance tuning
- RAID/RAIN concepts; DAS, NAS, and SAN storage architectures.
- Avamar Backup & Restore management
- Storage and VM performance monitoring and troubleshooting.

KEY ACHIEVEMENTS

- Reduced manual testing effort by 30% through automation implementation.
- Received the Best Employee Award at HCL Technologies twice.
- Developed a VM health-monitoring automation tool and three value-add scripts for the team.
- Improved defect detection and supported reliable, timely releases.

EDUCATION

Bachelor of Engineering (B.E.) — Electronics and Communication Engineering | 2016 – 2020
Panimalar Engineering College, Anna University, Chennai | **Score: 83.1%**

Higher Secondary (12th Standard) | 2016
Government Higher Secondary School | **Score: 93.42%**

SSLC (10th Standard) | 2014
Government Higher Secondary School | **Score: 94.8%**

ADDITIONAL INFORMATION

Father's Name: Annadurai (Late)
Mother's Name: Rajakumari
Date of Birth: 03-03-1998
Marital Status: Married
Languages Known: Tamil, English
